

# INDUSTRIAL FLOWMETERS

## RHP SERIES HIGH PRESSURE FLOWMETER REGULATOR

The RHP High Pressure Flowmeter is designed for use with high pressure Argon / Argon Blend cylinders (up to 6000 PSI) and is equipped with a 2" high pressure inlet gauge.

- The RHP Series offers a machined brass body housing, chrome plated bonnet
- Neoprene diaphragm, PCTFE seat assembly
- Low friction, replaceable thrust bushing extends service life
- Dual Safety Relief Valves and Inlet Filters extend service life
- Self re-seating safety relief protects against over pressurization
- 2" high pressure inlet gauge
- Back Pressure compensated flowmeter
- Three year warranty
- Made in the USA

**RHP-3-P**

Includes RWS-2-13 Flowmeter (not shown)

MODEL	CGA INLET GAS SERVICE	FLOW CAPACITY (SCFH)	INLET PRESSURE (PSIG)	OUTLET (BOTH PROVIDED)
RHP-3-P	680 Argon Argon Blends	0-70	0-6000	9/16"-18 RHM 5/8"-18 RHF

## RWS SERIES INDUSTRIAL STATION DROP FLOWMETERS

The RWS Series Flowmeters provide accurate measurement of gas flow in welding and laboratory applications. All models are designed for an inlet pressure of 50 PSIG and are furnished with a 1/8" NPT female inlet.

- Durable flowtube with shatter resistant cover
- Dual calibrated flow tube, calibrated for Argon and CO<sub>2</sub>
- Needle valve for precise adjustments
- Inlet Filter extends flowmeter service life
- Calibrated at 50 PSIG inlet pressure
- Three year warranty
- Made in the USA

**RWS-2-13**

MODEL	GAS SERVICE	FLOW CAPACITY (SCFH)	INLET	OUTLET (BOTH PROVIDED)
RWS-2-13	Argon Carbon Dioxide	0-70	1/8" NPT F	9/16"-18 RHM 5/8"-18 RHF
RWS-2-7	Nitrogen	0-100	1/8" NPT F	9/16"-18 RHM 5/8"-18 RHF

Made In The U.S.A.
