

INDUSTRIAL FLOWMETERS

RPB-3 SERIES GAS SAVER

The RPB-3 Gas Saver eliminates the wasteful shielding gas surge and turbulence at the start of each weld cycle and maintains uniform flow in GMAW and GTAW welding applications. It is ideal for robotic or high cycle GMAW applications. Easily installed and adjusted, this product connects to virtually any flowmeter or flow gauge outlet.

- Machined aluminum body
- Chrome plated zinc bonnet
- Durable reinforced neoprene diaphragm
- Factory set at 4 PSIG, eliminates surge and turbulence
- Easily adjustable to meet a range of requirements
- Three year warranty
- Made in the USA

RPB-3

MODEL	GAS SERVICE	INLET CONNECTION	INLET PRESSURE (PSIG)	OUTLET (BOTH PROVIDED)
RPB-3	Argon Carbon Dioxide	5/8"-18 RHM	0-200	9/16"-18 RHM 5/8"-18 RHF

HELIUM BALLOON INFLATORS

ECONOMY RENTAL INFLATORS

Economy inflators are durable, easy to install and easy to use. Models are available with or without cylinder content gauges.

- Easy to use horizontal design
- Replaceable O-ring (W615-0)
- Replaceable rubber tilt valve (TV-TP)
- Maximum inlet pressure 3000 PSIG – outlet pressure 38-85 PSIG
- One year warranty

R125G

MODEL	GAS INLET GAS SERVICE	DESCRIPTION
R125	580 Helium	Standard Latex Economy Inflator
R125G	580 Helium	Standard Latex Economy Inflator with cylinder content gauge

DELUXE RENTAL INFLATORS

Deluxe models are available with or cylinder content gauges and with wrench type connections or hand tight connections.

- Easy to use vertical design
- Internal filters trap foreign matter and extend regulator life
- Maximum inlet pressure 3000 PSIG – outlet pressure 38-85 PSIG
- One year warranty

RPB-6G

RPB-6HG

MODEL	GAS INLET GAS SERVICE	DESCRIPTION
RPB-6	580 Helium	Deluxe with wrench type connection
RPB-6H	580 Helium	Deluxe with hand tight connection
RPB-6G	580 Helium	Deluxe with wrench type connection and cylinder content gauge
RPB-6HG	580 Helium	Deluxe with hand tight connection and cylinder content gauge

Made In The U.S.A.
