

OXYGEN AND ACETYLENE HVAC REGULATORS

Saves Time:

- Preset regulator, no timely pressure adjustments.
- Hand-tight, color - coded connection makes connecting regulators to cylinders quick and easy.

Saves Money:

- Durable design minimizes chance for damage during use and handling.
- No regulator adjustment necessary.

Safer:

- No risk of adjusting regulators above safe operating pressure.
- O-ring seals on inlet connections improve seal integrity.
- VO-0123 meets ASTM G175 promoted ignition and oxygen surge tests.

The **EASIEST** way
to braze line sets!

OXYGEN AND ACETYLENE HVAC REGULATORS

FEATURES AND BENEFITS

- Delivery pressure: regulators are set to deliver optimized pressure to the torch.
- Color-coded hand-tight cylinder connections simplify installation.
- Gauge placement and protective boot(s) prevent costly damage and downtime.
- Easy-to-read gauge for quick check of cylinder contents.
- Compatible with tip numbers 0, 1, 2, and 3 and A-size torches and hoses.
- CGA 200 (VA-Acetylene), CGA 540 (VO- Oxygen) inlet connections.
- A-size outlet connection
- 1 year warranty
- UL Listed
